INVESTMENT OPPORTUNITIES

WELCOME TO MASON REAL ESTATE — YOUR GATEWAY TO BALI PROPERTY INVESTMENT, IN PARTNERSHIP WITH PROPERTIA.COM.

Bali is no longer an emerging market — it is a proven global destination for lifestyle, investment, and tourism, consistently ranking among the world's top travel destinations year after year.

Bali recorded nearly 6.95 million international arrivals in 2025, on track for a record seven million in 2026. Visitor preferences are shifting strongly toward private villas and boutique rentals over traditional hotels, creating consistent demand for well-located leasehold properties. The short-term rental market averages 65% occupancy year-round, with over 37,900 active Airbnb listings and 96% of guests coming from international markets — ranking Bali in the top 3% of Southeast Asia for both revenue and average daily rate. Bali's government is actively shifting toward quality tourism, attracting higher-spending, longer-staying visitors — a trend that directly benefits premium villa investment in areas like Canggu, Pererenan, and Uluwatu. The legal framework for foreign buyers is well-established, with PT PMA structures providing full protection and clear pathways to ownership.
